FIG. 7

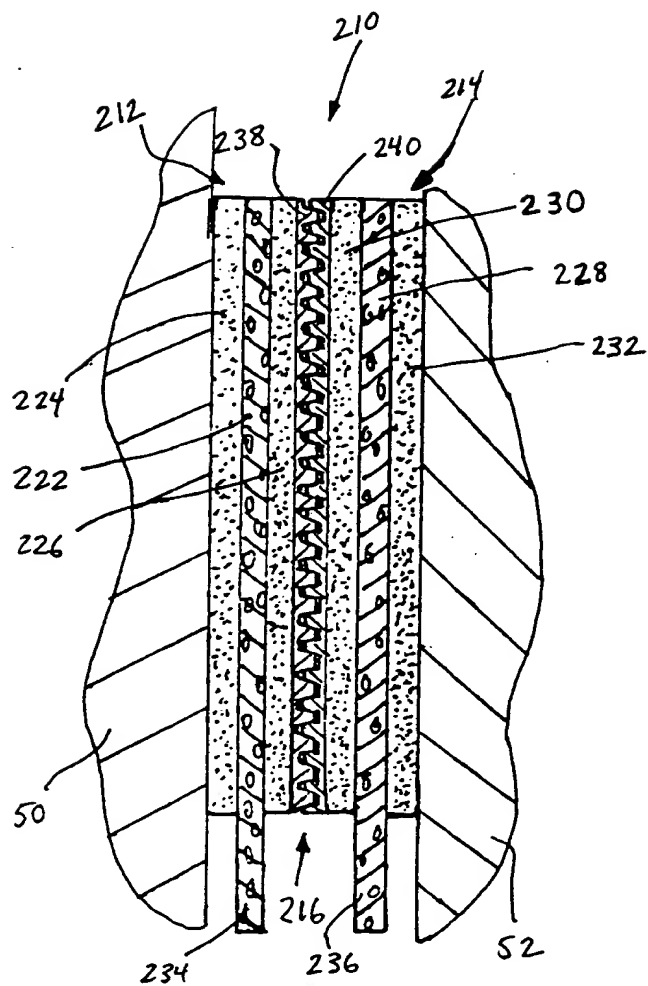

FIG. 8

A cross-sectional view of a multi-layered structure 312. The structure is composed of several layers: a central core 322, an inner layer 324, and an outer layer 326. The core 322 contains a series of small circles 334. The entire structure is surrounded by a hatched region 338, which is itself surrounded by a larger hatched region 352. An arrow points to the central core 322.
